Remarks: I received some clarification on the attached memorandum from SA/ADDO, as follows:

The subject of what the Agency is willing to do for personnel captured by terrorists has come up frequently in training sessions for junior officers and other similar forums. Instructors, etc., have been forced to reply that official U.S.Covernment policy is vague in certain important respects. Secretary Kissinger has stated at times that we will not negotiate with terrorists, but at the same time has indicated acceptance that you at least have to establish communications with terrorists in hostage situations. Additionally, the question of whether their employers can bargain on behalf of held as hostages has never been addressed.

Informal contacts at State working levels have revealed that responsible Department officers themselves

are not exactly sure of Kissinger's feelings on this subject and would like to see them spelled out. This sentiment was reiterated, in fact, by Under Secretary Habib in a recent meeting with Ted Shackley. Habib believed that the Secretary would respond favorably to an approach by the DCI on this subject and would accept the recommendations contained in the attached memo.
